zohocorp manageengine supportcenter plus 11.0
zohocorp manageengine servicedesk plus 11.3
```

Description:

Zoho ManageEngine ServiceDesk Plus before 11306, ServiceDesk Plus MSP before 10530, and SupportCenter Plus before 11014 are vulnerable to unauthenticated remote code execution. This is related to /RestAPI URLs in a servlet, and ImportTechnicians in the Struts configuration.

Main problems:

306 "Missing Authentication for Critical Function"
