

Components:

mono-project mono 5.18.0.240\+dfsg-3

mono-project mono 6.8.0.105\+dfsg-3

Description:

The mono package before 6.8.0.105+dfsg-3.3 for Debian allows arbitrary code execution because the application/x-ms-dos-executable MIME type is associated with an un-sandboxed Mono CLR interpreter.
