

Problem:

You need a list with installed software on linux?

Solution:

Use system packet manager

Examples:

```
APT      -> apt list --installed
DNF      -> dnf list installed
YUM      -> yum list installed
Zypper   -> zypper se --installed-only
Pacman   -> pacman -Q
Portage  -> equery list "*"
Nix      -> nix-env -q
Flatpak  -> flatpak list
Snap     -> snap list
Pkg      -> pkg info
opkg     -> opkg list-installed
```
