

```
theme-fusion avada *
```

Description:

The Avada | Website Builder For WordPress & WooCommerce theme for WordPress is vulnerable to arbitrary file uploads due to missing file type validation in the `ajax_import_options()` function in all versions up to, and including, 7.11.4. This makes it possible for authenticated attackers, with contributor-level access and above, to upload arbitrary files on the affected site's server which may make remote code execution possible.

Main problems:

```
434 "Unrestricted Upload of File with Dangerous Type"
```
