wpswings woocommerce ultimate gift card *

Description:

The WooCommerce Ultimate Gift Card plugin for WordPress is vulnerable to arbitrary file uploads due to insufficient file type validation in the 'mwb\wgm_preview_mail' and 'mwb\wgm_woocommerce_add_cart_item_data' functions in all versions up to, and including, 2.6.0. This makes it possible for unauthenticated attackers to upload arbitrary files on the affected site's server which may make remote code execution possible.

Main problems:
