

Problem:

You will find file or folder, **find** your best friend.
Or you search specific files on sysmtem, for example only files.

Solution:

Following command can help you:

```
find / -name "*.key"
```

other one

```
find / -name "passwords.txt" 2>/dev/null
```

For file searh onlyuse:

```
find / -type f -name "passwords.txt"  
2>/dev/null
```
