

## Components:

amd epyc 8024pn -  
amd epyc 8024pn firmware \*

## Description:

A TOCTOU (Time-Of-Check-Time-Of-Use) in SMM may allow an attacker with ring0 privileges and access to the BIOS menu or UEFI shell to modify the communications buffer potentially resulting in arbitrary code execution.

## Main problems:

367 "Time-of-check Time-of-use (TOCTOU) Race Condition"
