

Problem:

You need informations to user on linux?

Solution:

Use **chage** with the **-l** flag.

Example:

```
Last password change           : Sep 10, 2024
Password expires                : never
Password inactive               : never
Account expires                 : never
Minimum number of days between password change : 0
Maximum number of days between password change : 99999
Number of days of warning before password expires : 7
```
