CVE-2022-25967 - Score: 8.1

Components:

eta.js eta *

Description:

Versions of the package eta before 2.0.0 are vulnerable to Remote Code Execution (RCE) by overwriting template engine configuration variables with view options received from The Express render API. **Note:** This is exploitable only for users who are rendering templates with user-defined data.

Main problems:

94 "Improper Control of Generation of Code ('Code Injection')"
